

Ma. Angeline T. Tipa

BS Computer Engineering (Big Data) · Polytechnic University of the Philippines – Manila

angelinetipa@gmail.com · 0928 372 6099 · Cavite City · github.com/angelinetipa · opal-portfolio.vercel.app

Graduating Computer Engineering student with QA internship experience — aiming for software development or data analyst roles.

EXPERIENCE

Quality Assurance On-the-Job Trainee

Jul 2025 – Sep 2025

DOST–CO-PES, ITD (Project LODI) · Taguig City

- Wrote and revised test cases for UI screens of two government web systems (DIMIT, ISSP).
- Executed functional test cases across user roles (Admin, Agency Focal) in a VPN-secured environment.
- Logged results in structured Excel reports with pass/fail status, tester details, and remarks.

IT On-the-Job Trainee

Jul 2024 – Sep 2024

Local Government of Cavite, MIS Department · Cavite City

- Set up and formatted government PCs, built Cat5e/Cat6 cables, and configured IP settings and printer sharing.
- Developed a full-stack CRUD web app (Django, MySQL, Bootstrap) with image-upload support.

SPES Student Worker

Oct 2022 – Dec 2022

City Social Welfare & Development Office (CSWDO) · Cavite City

- Encoded and organized records in Excel for DSWD, scholarship, and housing program masterlists.
- Verified IDs and documents, cross-referenced masterlists to fix errors, and supported payout events.

EDUCATION

Polytechnic University of the Philippines (PUP), Manila

2022 – Sep 2026 (expected)

- BS Computer Engineering (Big Data) · GWA: 1.50 · Media Head — Software Engineering Day 2026 (ASCEND).

Cavite National High School (CNHS), Cavite City — STEM/STE · GPA: 95 · YES-O Officer (3 yrs)

2016 – 2022

TECHNICAL SKILLS

Languages & Frameworks: Python, SQL · **Working Knowledge:** TypeScript, Java, C/C++, HTML/CSS, React, Supabase

Data & Analytics: Pandas, NumPy, Matplotlib, Seaborn, PySpark

Tools & Platforms: Git/GitHub, VS Code, Google Colab, Vercel, MySQL, AutoCAD, MS 365

Soft Skills: Detail-Oriented · Documentation-Minded · Design-Conscious · Independent Learner

SELECTED PROJECTS

BIO-FISH — Control app for a bioplastic machine — Capstone team of 4 · Lead Developer · biofish-control.vercel.app

- React Native (Expo) app controlling our capstone ESP32 machine that turns fish scales into bioplastic.
- Built machine commands as a Supabase Postgres queue, not a flag, so lost WiFi can't leave an old command running.
- Shipped to web (Vercel) and Android (EAS Build) with a no-login demo mode that runs a full cycle.

Aralite — Browser-based SQL analytics on PH school enrollment — Personal project · aralite.vercel.app

- Rebuilt a Big Data course activity into a deployed dashboard on a public DepEd dataset of 27M learners.
- Built a Python/pandas pipeline: Excel to Parquet, 58 columns to 3.5M rows, zero dropped, plus quality report.
- Ran SQL in the browser with DuckDB-WASM in a React app; region-to-barangay filters, unit tests, CI.

Fyropy — Notes and tasks app with AI sorting — Personal project · fyropy.vercel.app

- Developed a capture-first notes app where AI sorts each entry into a type, tags, and summary (BYOK Groq/Gemini).
- Built with React Native, Expo, TypeScript, Supabase (Auth, RLS); optimistic UI rolls back failed writes.
- Tested with Jest and Playwright at unit, hook, and end-to-end levels; GitHub Actions checks every PR.

CERTIFICATIONS, AWARDS & HONORS

- DOST–SEI Junior Level Science Scholarship — qualified via competitive scholarship exam (2024).
- BIO-FISH (capstone thesis, team of 4) — Top 8 finalists, 4th Annual Prototyping Exhibit & Recognition (APEAR 2026).
- CCNA: Introduction to Networks — Cisco Networking Academy (2025).
- Python Data Fundamentals (7-course) · Java Fundamentals (5-course) — DataCamp (2026).
- Introduction to Excel · Intermediate SQL — DataCamp (2026).
